

THOMAS BOURC HIS

Full-Stack Developer | JavaScript | React | Node.js | Express | MongoDB | REST APIs

☎ +33684447399 @ bouchisthomas@gmail.com 📍 Brest, France

SUMMARY

Full-Stack Developer with experience in project management in industrial and consulting environments. Recently trained in full-stack web development through an intensive coding bootcamp, with hands-on experience building and deploying scalable applications using **JavaScript, React, Node.js, Express, MongoDB, HTML, CSS, and RESTful APIs**.

Experienced in **frontend and backend development, database modeling, API development, version control (Git), and Agile workflows**. Strong focus on writing clean, maintainable code and delivering reliable, user-centric solutions.

Able to collaborate with cross-functional teams, understand business requirements, and implement technical solutions across the full software development lifecycle.

EXPERIENCE

Web & Mobile Developer - Bootcamp

La Capsule - Remote

📅 10/2025 - 01/2026 📍 Remote

- Frontend/Backend development: HTML, CSS, JavaScript, React, Next.js, Node.js, Express, REST API
- Mobile development: React Native, Expo
- NoSQL databases: MongoDB (CRUD operations)
- Version control & collaboration: Git, GitHub

Consultant ERP/MES and Supply Chain

Talan

📅 2023 - 2025 📍 Rennes, France

- Support and enhancement of ERP modules
- Process optimization and data reliability improvement
- User needs analysis and functional specifications writing

Supply Chain Project Manager

SILL Entreprises

📅 2022 - 2023 📍 Brest, France

- Cross-functional project management across 7 industries sites
- Deployment of decision-support and planning tools

PROJECTS

Key Projects

📅 10/2025 - Present

- **MorningNews** – Developed a real-time news platform using **React**, Node.js, Express, **REST APIs**, and **JWT** authentication, enabling secure user access and live data updates.
- **MarketScope** – Built a full-stack application with React, Node.js, MongoDB, Express, and **OpenAI API**, implementing API integration, backend services, and responsive frontend architecture.
- **PawConnect** – Designed a cross-platform mobile application using **React Native**, with real-time geolocation, cloud storage, photo gallery, and **backend API services**.
